An Employee is required to complete an application form specifying the enrollment date, leave period commencement date, return date, and semi-monthly pay period deduction for each plan year. Following review and approval at the Department Head or Division level, payroll deductions are started.

**4. How much salary can be deferred?**

An Employee can defer anywhere from 10% to 30% of their annual gross salary in a given calendar year. The election to defer must be made prior to the beginning of each calendar year.

**5. Are there any stipulations on the leave of absence period?**

Yes, the tax regulations covering these plans, specify a minimum leave period of six months and the maximum leave period of twelve months. A further requirement is that the total deferral period and leave period combined cannot exceed six years from the Employee's commencement date under the plan.

**6. Can the amount of salary deferral or the date for the leave of absence be changed?**

Only one deferred salary election may be made for each tax year. The election must be completed prior to the beginning of the tax year to which it applies and cannot be changed or discontinued unless you terminate employment. The date of the leave period may be changed with the consent of the General Manager provided that the "six year rule" (i.e. combined deferral and leave period) is not exceeded.

**7. What is the tax status of deferred salary amounts?**

The amount of salary which has been deferred will not be included in the Employee's income in the year in which it is earned but will be included for the period of the leave during which time all deferred amounts must be paid to the Employee.

**8. Will interest be paid during the deferral period on amounts deferred?**

After careful consideration of the tax and other implications of paying interest, it was determined that no interest would be paid. However, it was agreed that the Employer's share of all contributions towards maintaining group life, dental and pension coverage at pre-leave levels would be paid during the period of leave of absence. The Employee's share of such contributions would be deducted in the normal fashion from deferred salary paid during the leave period. This arrangement is covered by the tax regulations and does not constitute a tax benefit whereas any interest paid is taxable in the year it is earned.

**9. What happens if an Employee cannot complete the deferral and leave period?**

If an Employee terminates employment prior to the completion of the D.S.L.P., the entire amount of his or her deferred salary must be refunded in the tax year termination occurs. An Employee may also discontinue participation in the plan due to financial hardship or other exceptional circumstances in which case all amounts previously deferred must be refunded immediately. Under either circumstance, refunds are fully taxable in the year paid.

**10. What happens in the event of death or prolonged disability?**

If death occurs during the deferral period, a lump sum refund of amounts previously deferred is paid to the Employee's estate or named beneficiary. Depending upon the severity and likelihood of recovery, a prolonged period of disability during the deferral period will result in either a suspension of deductions or a payout of amounts previously deferred.

**11. Are there any restrictions during the leave period?**

An Employee may use the approved leave period for any purpose with the exception of any involvement with the City for remuneration. Following completion of the leave the Employee must resume employment with the City for a minimum period of time equal to the leave in order to retain favourable tax status of deferred salary amounts.

**12. What about Employee benefits during the deferral and leave period?**

The intent is to maintain all Employee benefits pre-salary deferral levels during the deferral and leave period. The notable exceptions are Canada Pension Plan and Unemployment Insurance which stipulate that contributions and benefits must be based on the actual earnings received by the Employee. Vacation accruals and service credits will be suspended during the leave period only and no coverage for Workers' Compensation would be available from the City. As previously stated, the City will continue to pay its share of benefit costs during the leave period.
